THREE CANDIDATES  
IN THE RACE FOR  
PEACE RIVER SEATFletcher Bredin Nominated as  
Independent Conservative  
ChampionHOMESTEAD INSPECTOR  
CONSERVATIVE SPIEGLERBooze, Bacon and Bootleggers  
the Conservative Pillars of  
Strength—Same Gang Busy  
as in Edson Fight(Special to The Capital) —  
GLENDALE, Alta., Aug. 19.—W.  
A. Bredin, member of the Conservative  
Party, Alphonse Patterson, Grand  
Prairie, conservative, and W. F. Gold-  
din, independent conservative, were  
nominated before A. W. Campbell, re-  
turning officer, at the Peace River con-  
stituency on Monday at Grande Prairie.  
The usual methods of the conservative  
party are being used. Almost no meet-  
ings are held and at most a single  
speaker is the principal speaker. Joshua  
Fletcher, homestead inspector appointed  
by the Laurier government. For  
nearly a year president of the Farmers  
Association of the Peace River, Alberta,  
and enjoyed some measure of respect  
as an independent thinker, but in  
answer to orders from the party man-  
agers has now fallen into the ranks of  
the official Conservative Inspector and now  
represents the party platform. The other  
local officeholders are also using their  
position to intimidate voters and the  
same bootlegging gang, many of whom  
have been prosecuted by the attorney-  
general's department, and on this ac-  
count waged a fierce campaign against  
the homestead inspector. The meetings are  
now opening in Peace River, the men  
bringing in 28 pack horse loads of wet  
goods into dry belt recently. Some  
of them even dare to work openly for  
Mr. Golddin, who is the only one of the  
well-known methods of this recognized  
admit the conservative party. Use  
is being made also on behalf of Mr.  
Patterson, who is a member of the party  
essentially for deserting farmers, tempor-  
arily out of provisions but in reality for  
the use in the campaign. However  
neither bacon, whiskey nor threats of  
violence are likely to influence  
the electors here.Bredin is not considered a serious  
factor in the race.GIVES AID TO HER  
FAITHLESS SPOUSESan Francisco, Aug. 20.—Mrs. Mary  
Dugay sat in the court room where her  
husband stands charged as a "white  
slaver," heard him testify that he had  
been "faithful" to her with Martha  
McGinnis, widow of a local attorney,  
and 20 minutes later took the stand to testi-  
fy in his behalf.With her evidence the defense and the  
government rested and the government  
began its arguments to the jury.COST OF LIVING  
A LITTLE LESSOttawa, Aug. 20.—A slight increase in  
the cost of living as compared with the  
June figures is indicated in the report  
of the labor department of wholesale price  
index for July. The month's depar-  
ture index number, signed at 154.1, is  
compared with 153.9 in June and 154.1  
July, 1912.ROCK SLIDE DELAYS  
WEST BOUND TRAINAnother rock slide, this one west of  
Edmonton, held up the westbound train  
on the main line of the G. T. P. R. yesterday  
for a couple of hours. The slide took place early in the morning  
and the two cars of rock and clay  
was precipitated down the hill and required  
considerable time to remove it  
and put the track in condition for  
operation again. The company has men  
stationed all through the mountainous  
country whose duty it is to move the  
obstacles whenever a slide has occurred.THE WEATHER.—  
Forecast for today and Saturday  
for scattered showers, but generally fine  
and on Thursday, Alberta. Fair and  
moderately cool today and on Thursday.BUTTERFIELD, Alberta, Aug. 19.—A rain  
occurred in eastern Manitoba, but the  
weather, generally all over the prairie pro-  
vinces, has been warm. A few points in Alberta report low tem-  
peratures during the night.High 68  
Low 48Many vain attempts have been  
made by English and American  
climbers to scale this peak.YOUNG MAN ARRESTED  
FOR ASSAULT ON GIRL  
ON SIXTEENTH STREETR. G. Bawden Taken in Charge by Police on Description Given by  
Girl Assaulted Last Night—Brought up in Police Court  
this Afternoon.

Acting on information supplied to him this morning Inspector Shute arrested J. R. Bawden on a charge of indecent assault. He is the man who molested the young girl on Sixteenth street last evening, the police believe. Bawden, who is a well built bookkeeper of 26, is a well-made man, fair in trade and rooms in the Gordoni block. In the police court this afternoon he sat in the prisoner's box and remained silent. The charge against him was stated by the police and a remand until Friday was granted by the prosecution and granted by the court.

After he had been placed in the cell the young lady was brought to the station and positively identified the man by the police.

She screamed for help and several people rushed from nearby houses, whereupon the man made his escape.

As he who had followed her last night, she stated that after leaving the Brown block, where she was visiting a friend, upon ascending the steps she insisted upon accompanying her home and told him that she wanted nothing to do with him and proceeded toward the door of her employer, Mr. C. W. White, 806 Sixteenth street. She alighted from the car when man was at the corner of Jasper and Sixteenth and insisted that she walk with him. She said her best to get away from him, but as he was stronger, a portion of the street he grabbed her around the throat and threw her to the ground.

She screamed for help and several people rushed from nearby houses, whereupon the man made his escape.

## POOR TRAFFIC FACILITIES AT UNION DEPOT

Board of Trade Appoints Committee to Interview Railroads to Get Improvement.

### STATED G.T.P. BRIDGES ON FRASER STOP TRAFFIC

Committee Reports that No More Workers Should Be Brought to City.

The passenger and traffic conditions at the G.T.P. and the local roads and bridges were included in a report submitted by the council of the board to a full meeting of the Board of Trade held yesterday afternoon. The facilities for handling passengers both to and from Edmonton were anything but the best in the opinion of the council. At times when the traffic was heavy it was necessary for people to walk across. The station platform at times was so crowded as to be dangerous. A committee was appointed to take the matter up with the two railways involved.

A report was made by the council of the G.T.P. to increase their freight service to Mile 142 B.C. The council also drew the attention of the Board of Trade to the fact of possible works, to the fact that the Fraser river would be closed to navigation on the upper reaches, by the action of the G.T.P. The council also had heard of the second and third crossings. The minister of public works had assured the council that no permanent bridge which obstructed navigation would be approved of.

The committee appointed to look into labor conditions in the city reported that there was a sufficient number of people in Edmonton to meet the demand in practically every line of business. It was not in the interest of the city to have a labor situation such that any large number of wage earners should be encouraged to come to Edmonton at the present time. The classes in the committee were those who were capable to establish new industries and farmers to live up the vacant land.

#### DO NOT NEED MONEY.

In reply to a query from the Calgary board of trade as to the board's opinion of the financial situation of the Dominion, the board said: "The board of trade to the farmers of Alberta, the board passed a resolution stating that there were no conditions in Central Alberta which would warrant a proposal even though being made, and that it should never have received any serious consideration from any quarter. The board, the resolution added if given publicity, would do untold damage to the province."

The Lethbridge board of trade, for the co-operation of the board in petitioning the Dominion government to establish markets throughout the province, where mixed farmers could dispose of their products. The board replied that they had not noticed any serious lack of markets, but that the supply of farm produce was altogether inadequate to meet the demand. Still, the board said, it was felt that enormous quantities of farm produce, other than wheat, were brought into the province every year.

## MANY ELEVATORS TO BE ERECTED

Will be Constructed in Alberta in Time to Handle This Year's Crops.

Calgary, Aug. 20.—Fifty-six line elevators will be constructed in Alberta this year in time to handle this season's crop by the Alberta Farmers' Elevator company, authorized under the Farmers' Elevator Bill passed at the last session of the Legislature. The new company is closely allied to the United Farmers of Alberta and the Grain Growers company of Manitoba. The work of erecting the elevators is to be under the direction of the new company, and the majority of the other half on the ground at the various locations. For the erection of these elevators 46 local companies have been engaged in various grain communities of Alberta.

The announcement of the status of the work, which comes as a surprise, was made by the manager of the Farmers' Elevator company, held here yesterday. Active in the deliberations of yesterday's session was President W. J. Trebilcot, United Farmers of Alberta; Secretary, Woodhouse, of the same organization. Vice-President E. J. Fream of the Grain Growers, and many other prominent members of the farmers' organization from the various parts of the province. More than 100 were in attendance at the meeting.

At the meeting of the directors yesterday, H. H. Fox, president of the Alberta Secretaries' Woodhouse, of the same organization, "Vive-President," E. J. Fream of the Grain Growers, and many other prominent members of the farmers' organization from the various parts of the province. More than 100 were in attendance at the meeting.

The cost of construction of the elevators varies from \$8,000 to \$10,000 each, and the new elevators can be had for about \$1,500 extra bushels. During the course of the next two years it is expected to expand the scheme considerably.

## IMPEACHED GOVERNOR SULZER AND LIEUTENANT WHO CLAIMS PLACE.

### Sulzer Afraid of an Attack by Gangsters

Becomes Worried on Steps of Legislative Mansion When Sees Young Man.

Albany, N. Y., Aug. 20.—As Governor Sulzer approached the capital steps today on his way from the legislative mansion, he was suddenly stopped and turned around to stare at him.

"Are you here to assault me?" the governor asked.

"What in the world should we want to assault you?" replied one of the young men in astonishment. "We are simply looking around—sightseeing."

The executive, his fears quieted, shook hands nervously with the trio and walked quickly up the steps to the executive chamber. Sulzer and his aids had never heard of a planned plot to have him attacked by gangsters or kidnapped.

The New York state legislature yesterday adopted a resolution providing for a week's adjournment of both houses.

They will meet on August 27 at 8:30 p.m.

## BOTH WOUNDED IN SWORD DUEL

Hungarian Premier and Army Lieutenant Fight as the Result of Suit.

Budapest, Hungary, Aug. 20.—Count Stephen Tisza, the Hungarian premier, and a sword-bearer in the Hungarian army, the son of a well-known Hungarian, were slightly wounded in the head.

The quarrel arose over the Marquis of Lansdowne, who had tried to influence witnesses in a recent libel suit.

Today's duel was the third fought by Count Tisza in the present year, by Count Lansdowne in the present year.

## COLLOTYPE PLANT TO OPEN IN CITY

Local Photographer Builds to Accommodate Only Concern of Its Kind in West

A local photographer, eventually to employ over 100 workmen, is being started within a month by the Ernest Brown company. The plant will be located at the corner of King and New, the new street having been selected because it is away from the centre of the city, has plenty of light all sides, and there is no danger of fire.

The colotype work consists of producing by a photo-mechanical process photographs, calendars, etc., on a large scale. The new plant is to be located in the C.P.R. station, as a site for the new forestry office building.

### TOO MUCH COUPON SPENT

London, Aug. 20.—An astonishing state of affairs has arisen in the society of locomotive engineers and firemen, a trade union to which about 30,000 railway locomotive engineers and firemen belong, after the cost of some \$80,000 above the society's income last year has been followed by a compulsory holiday for Secretary Albert Fox.

William Sulzer is shown at the top and below is Martin H. Glynn. According to the opinion of Attorney General Carmody of New York State, handed down in Albany last night, Glynn is the acting governor in place of the regular executive. Sulzer is held to be out of office as a result of the impeachment proceedings brought against him, it being held by the attorney general that the action was proper even at an extra session. Glynn will remain in the chair until Sulzer is acquitted or the proceedings dismissed. But Sulzer insists that he still is governor and the state has two executives now.

"With the governor is impeached," says the attorney general, "all his powers are automatically suspended until he has been acquitted or the impeachment proceedings dismissed by the court of impeachment." In the meantime, the lieutenant governor acts as governor. This is the plain intent of the constitution. Any other construction would nullify its express provision."

## ROYAL COMMISSION MEETS IN YORKTOWN

Evidence on Grain and Credit Conditions is Given by Over 50 Farmers in District.

Yorkton, Aug. 20.—The royal commission on grain and credit conditions held its most interesting session at Yorkton this afternoon when evidence on the various matters under investigation was given by over 50 farmers from the area. Hon. George Langford presided and was assisted by Chas. Dunning and Professor Oliver, of the University of Saskatchewan. The weight of the evidence was that the grain market is in a bad condition.

The quarrel arose over the Marquis of Lansdowne, who had tried to influence witnesses in a recent libel suit.

Today's duel was the third fought by Count Tisza in the present year, by Count Lansdowne in the present year.

## GOVERNMENT HAS LET DRILL HALL CONTRACT

Indian Head Gets New Drill Hall to Cost \$13,700 and Government Purchases Site for Forestry Building

Indian Head, Sask., Aug. 20.—The department of forestry has contracted for the drill hall to Jas. McNaull and company of Winnipeg for \$13,700. The government has also bought a site on West street, near the C.P.R. station, as a site for the new forestry office building.

The colotype work consists of producing by a photo-mechanical process photographs, calendars, etc., on a large scale. The new plant is to be located in the C.P.R. station, as a site for the new forestry office building.

William Sulzer is shown at the top and below is Martin H. Glynn. According to the opinion of Attorney General Carmody of New York State, handed down in Albany last night, Glynn is the acting governor in place of the regular executive. Sulzer is held to be out of office as a result of the impeachment proceedings brought against him, it being held by the attorney general that the action was proper even at an extra session. Glynn will remain in the chair until Sulzer is acquitted or the proceedings dismissed. But Sulzer insists that he still is governor and the state has two executives now.

"With the governor is impeached," says the attorney general, "all his powers are automatically suspended until he has been acquitted or the impeachment proceedings dismissed by the court of impeachment." In the meantime, the lieutenant governor acts as governor. This is the plain intent of the constitution. Any other construction would nullify its express provision."

A BRAGGART WHO BELONGS  
IN PERMANENT OBSCURITY.

After having toured the Dominion in close company with that warlike politician Sam Hughes, General Sir Ian Hamilton submits a report containing recommendations which, if carried into effect, would mean an increase in the annual military expenditure of Canada from ten millions to twenty, or possibly thirty, millions of dollars. As Sam Hughes put it, these views closely correspond with his own (a not very surprising outcome, seeing that it was Hughes who brought Hamilton to Canada and who showed him the sights after his arrival), and he evidently proposes, if it is within his power, to put them into effect.

The Hamilton report cannot be viewed complacently by Canadians who recognize the danger in which Canada stands of being drawn into the insane carnival of armament now being carried on in European countries. It must be admitted by all who view the matter dispassionately that neither Hamilton nor Hughes are safe judges of what is good for Canada.

Sam Hughes is a clamorous upstart who goes swaggering about the country breathing out raucous bellowses calculated to glorify homicide and incite murder en masse. He is an enemy of peace who preys upon the prosperity of pastoral quiet of a country which owes not an iota of its grandeur to the crimson smudge of war. He is the swash-buckling embodiment of the braggart, the parading purveyor of preening pomp, the blatant, blaring, blustering soldier who, lacking the native ability to otherwise attract attention, would glorify himself in the lurid glare of blazing harvest fields and smouldering homes. His love of country commences and ends with his own ego. He is a public danger, to be classed with hydrophobic dogs and thawed dynamite; a nuisance which should be suppressed, an aggravation and a tax on the patience of a tolerant and long suffering land.

Hamilton is a journeyman soldier who gets his bread and butter by the pursuit of the profession of war. To sustain his position and place, war or the threat of war is a permanent necessity. Once let the nation adopt the principles of peace and his prestige fades. The call to arms is his opportunity; not the opportunity to stagger blindfold in the ranks and die in the ditch, but the opportunity to throw legions of humanity into the gaps of hell that his own name may be emblazoned among those who have maneuvered the lines upon the ruthless battlefields of the world's wanton history and engineered the slaughter of new thousands to add to war's countless dead.

Hughes and Hamilton are the very type of men who constitute a constant menace; the kind of men who would arm the nation to the teeth and then chafe in their search for the opportunity to provoke a conflict—men who are war mad, obsessed by the crazy notion that a country's greatness in some manner depends upon the riot and carnage and destruction consequent upon a combat with some other people, probably as peace loving as our own.

To place in these men's hands millions of public money to be squandered upon armament would be a crime, and to relegate to them the right to take from useful toil the flower of the nation's manhood and waste men's most active years in the training camps; in the name of specious patriotism would be fully compounded, run riot and supreme.

For the general good of Canada fools of the Hughes type should be banished from public life into the obscurity to which their talents entitle them.

A VERY FOOLISH  
CHIEF OF POLICE

The summary dismissal of Deputy-Chief Wright and Sergeant Edwards on the suspicion that they talked to the newspapers places the chief of police and the police department in a rather peculiar, not to say odious, light.

What the men dismissed are charged with having done is that they transmitted inside knowledge of the affairs of the police to the newspapers. The story, as published, was that members of the police force had been guilty of drunkenness, immorality, frequenting houses of prostitution; looting round the pound and generally conducting themselves in a manner which was far from consistent with what the public has a right to expect from good policemen.

In Chief Carpenter's mind, evidently, the proper manner in which to deal with a story like that is to dismiss the men who had the temerity to tell it to the newspapers, as that is quite clearly what he thought he was doing when he let the officers selected for decapitation go from the force.

As a matter of fact, the dismissed policemen did not tell the story to the newspapers, and every working newspaper man in the city knows where the story came from. But the circumstance that they did not tell the story is a mark of dereliction, and not an exculpation. If the conditions were as represented, then the manifest duty of any officer actuated by a desire to protect the public and rectify conditions in the police department was to tell the story as once, to his superior if he would listen, and if not to whoever would give him a hearing. Nothing in the world excuses such conduct, as quickly and as completely as publicity.

But when Chief Carpenter, instead of taking up at once and investigating the charges that officers of his force had been drunk and frequenting houses of prostitution, dismissed the men whom he believed had told the story, he practically placed himself in the position of condoning sponsor for those conditions and of resenting any interference which might lead to their discrediting.

The reason why Becker got Little Louis and Gypo the Blizard to kill Rosenthal was because Rosenthal started to tell the newspapers about the conditions existing in the New York police force.

The mental attitude of Becker toward publicity in police affairs was to all intents and purposes the same as that adopted in his innocence by Chief Carpenter when he dismissed men on the suspicion that they talked to the newspapers.

Nobody imagines that Chief Carpenter is a dishonest chief of police, but he is quite evidently a very foolish one.

AN ELEVATOR POLICY  
THAT WORKS OUT.

When the Alberta government submitted its elevator policy to the legislature it was attacked by the opposition on the ground that it was impracticable; that no farmers would be bound by the con-

ditions incorporated in the government's plan of assisting the construction of co-operative elevators.

There are now twenty-three elevators under construction in the province of Alberta and twenty-three more will be commenced immediately, a total of forty-six with a capacity of more than half a million bushels, which will be ready for the handling of this year's crop.

The government's elevator policy, like its railway policy, is distinguished by the fact that it fits the opposition's predictions of failure to the contrary notwithstanding.

## JUST PARAGRAPHS

If Harry Thaw was looking for a place in which he would be fairly safe, from captivity he should have looked into the claims of Edmonton, with its many opportunities for failure.

The government's elevator policy, like its railway policy, is distinguished by the fact that it fits the opposition's predictions of failure to the contrary notwithstanding.

Saskatoon recently advertised 3,600 pieces of real estate for sale for taxes but the taxes on 3,350 pieces were paid before the advertising had run its customary course. Besides proving the value of advertising, this experience shows that some cities do not require to be short of money as they are at the present time.

Huerta has decided to take into consideration the suggestion of President Wilson's representative that he hold an election in order to ratify his presidency of Mexico. Possibly John Lind has explained to Huerta what a cinch it is to win elections by the Rogers method as practised in Macdonald.

Only a few weeks ago the Unionists were predicting a rebellion in Ireland if parliament thrust home rule upon the warlike Ulstermen. Now the pseudo rebels protest that the police do not properly protect their parades. In Chicago the women policemen had to get men policemen to guard them. Blood-thirsty Ulster should retain Mrs. Pankhurst.

A French aviator says that pretty soon people will be travelling in self-propelled rockets which will girdle the earth in 66 minutes. This will almost approximate the speed with which a dollar bill gets away from your hand in fair time.

Robert Donald, managing editor of the London Chronicle, tells the British Institute of Journalists that newspaper carriers will soon travel in aeroplanes. In Edmonton this will permit them to get from the center of the city to Mayor Short's new First Street and back in time for tomorrow's issue.

The cost of the Balkan war has now been officially totalled at five hundred million dollars. The figure would be more enlightening still if there were something to indicate how much it cost Western Canada in a retarded development.

TODAY IN  
DOMINION HISTORY

Frederick Coulter, the famous actor, was born at Sudtha Falls, near Kingston, Ont., 65 years ago today. He was 27 when he adopted the stage as a permanent profession, and he has performed in several amateur performances in Canada. During his early career he supported such stars as Lawrence Barrett, Fred Davis, Frank Tracy, Wardrobe, John Gilbert, John Osborne, and Mrs. Sheridan Shook, and played the leading role in "Around the World in Eighty Days." Afterward he joined forces with Robert Keene, and later with Thomas W. Keene. He was leading man with Rose Goshan when he first became a star, and next appeared with Richard Mansfield in the original production of "Dr. Jekyll and Mr. Hyde." He was noted for his remarkable memory, and at one time, while a member of the Boston Museum Stock company, he played 14 different important roles in two weeks, a new one every night.

On this date in 1541 Jacques Cartier, then on his third voyage of exploration, reached the Indian village of Stadacon, and named it Quebec. In 1535 Cartier had visited Stadacon, and had been received by the natives in a spirit of trust and friendship. He had given them small gifts. He repaid the simple hospitality of the savages by seizing and carrying away with him to France their chief, and the Indians gathered around Cartier to welcome their monarch, whom Cartier had promised to bring back. When told that the Indians had died the Indians gave up, and after a time, positively hostile. After a terrible winter at Charlesbourg, a settlement Cartier founded a few miles up the river, he returned to France, eager to return to France, and as soon as the ice had moved out of the river Cartier sailed for home, to spend the remainder of his days in peace.

On August 20, 1860, William Pitt, the fifth chief of staff of the British army, died. The French republic was reared on the ruins of the empire of Napoleon. Pitt's father was a prominent engineer, and one of Pitt's brothers has also attained high position in the government. His cousin, Henry Pitt, the famous mathematician, was elected to the French Academy in 1809, and the name of the president was originally Pitt's—Pitt's, meaning was.

M. Polaire is the ninth chief of staff of the British army. He is the son of a French general, and the French republic was reared on the ruins of the empire of Napoleon. In 1870, in the opinion of many observers of the political and social life of France, he was elected to the French Academy in 1809, and the name of the president was originally Pitt's—Pitt's, meaning was.

Polaire's early gained an enviable reputation as a lawyer, and was one of the leaders of the Paris bar, where his eloquence, wit and humor attracted many clients. He was only 27 when he became a member of the French National Assembly, and one of the first Deputies from his home district. He carried on a personal campaign, visiting all of the 172 communes of the district, and his election was due to his popularity, and his extreme moderation, but this to him, he replied, "I promise that it is a fault of which I will speedily cure myself."

At the age of 32 M. Polaire became a member of the government as Minister of Public Instruction, a position requiring ability of a high order, but this to him, he replied, "I promise that it is a fault of which I will speedily cure myself."

## OFFICIAL REPORT PUTS CROPS BEST LAST FIVE YEARS

Statistics Show an Increase  
Over the Average Yield  
for the Acre.

ALBERTA MAKES SOME  
WONDERFUL SHOWINGS

Sugar Beet Growth In This  
Province Has Much Higher  
Figure Than that Raised in  
Ontario.

Ottawa, Aug. 20.—In a bulletin issued by the census and statistics office the condition of the grain crop in the Northwest provinces were reported as generally excellent. Representing a standard of full crop by 100, the average production in Canada last year, full wheat is expressed as 77.5, of spring wheat as 87.02, of oats as 87.45, of barley as 87.58, of rye as 85.00, of flax as 89.32 and of flaxseed as 83.45.

The percentages of the standard condition of spring wheat, barley, and rye represent the promise of yields made in 1912. The wheat is 10 per cent of five, for rye of two and for flaxseed of one per cent above the average yields per acre of the last five years. The condition of the oil crop promises a yield equal to the average.

### Crops Particularly Good.

All the field crops of Canada on July 31, 1912, and only 7,750,000 (77.52) and oats (74.57) and flaxseed (76.45) are reported as having a condition above 80, the range being from 82 to 90, and corn for husking to 80 to 85, and the like.

In the three Northwest provinces spring wheat was reported as 84.60 in Manitoba, 89 in Saskatchewan and 88 in Alberta, the other grain crops being somewhat below the average. In 1912 in Saskatchewan and Alberta being 90 per cent or over. Root crops in the Northwest provinces are also particularly good.

The condition of buckwheat in the Maritime provinces and in Quebec is 90 and over, but in Ontario it is down to 73.40. The average yield per acre in the Northwest provinces, and in Ontario, was 80. The average in the Maritimes, where the great bulk of this crop is grown, the percentage condition is 84.17. Sugar beet, grown for beet sugar in Ontario and Alberta, is 80.44 for the former and 81.31 for the latter province.

### Yield Greater This Year.

The production, in millions of bushels per acre of full wheat, is 22.46 bushels, while for the harvested area in Ontario, Manitoba, Saskatchewan, Alberta and British Columbia of 92,600,000 acres, it is 21.40 bushels per acre.

These figures indicate a gain of 18,485,000 bushels, or 20 per cent, with 16,390,000 bushels from 781,000 acres in 1912. This yield is 13 percent above the last year.

The average yield per acre of hay and clover is estimated at 1.23 tons indicating a total yield of 9,096,500 tons from 7,621,600 acres, as compared with 11,120,000 tons from 7,633,600 acres in 1912. Alfalfa, with an average yield per acre of 1.38 tons, shows an estimated total production of 113,000 tons from 84,000 acres, an increase with 310,100 tons from 141,300 acres, 2.7 tons per acre in 1912.

**THREE ARE BURFOOTED.**—Curling, Newfoundland, Aug. 20.—A nearly-married couple and an elderly lady were found dead in their home, sleeping in the cabin of an auxiliary packet employed by the Canadian government on the coast of Newfoundland to bring news brought back from Labrador.

No details and no names were known, but the bodies were found in their beds, which brought the news of the tragedy.

**STARVING THROUGH LOCKDOWN.**—Toronto, Aug. 20.—With nothing to eat during the last three days, Mrs. Mary Cawdron, 60, who had been living in a serious condition, the result of lockout, and unless the physicians in the west end of the city can do something for her, there is but little hope for her recovery.

Mrs. Cawdron was working in her back yard two weeks ago, when she stepped on a rusty nail.

**OPOPOSED TO JACK UNHOMED.**—London, Aug. 20.—It is announced that Johnnie the dog, the hero of the year, engaged to appear at the Metropolitan Music Hall, Edgeware road, for a week from next Monday. A storm of protest has arisen and the management of the theatre may not allow him to appear.

**AIRSHIP TOWS ANOTHER**—London, Aug. 20.—The novel sight of an airship towing a disabled companion was witnessed at Aldershot, this afternoon. The dirigible, Etain and a naval airship were out manoeuvring when the machinery in the latter became disabled.

The Etain attempted to land in the other dirigible and towed her to the factory for repairs.

**VENICE, AUG. 20.—**The authorities at Buda-Pesth have ordered the consulate of Austria to leave the city, in view of an investigation of Argentina's methods in attempting to secure immigrants for the country.

The Argentinean consulate in Buda-Pesth has published an article in the "Gazette des Nations" in which it is asserted that the Argentinean government has treated the Argentineans and the Italian immigrants in Argentina with great severity.

The Argentinean government has been accused of being responsible for the death of many of the immigrants.

**FEW JEWS BENEFITED.**—Berlin, Aug. 20.—The Romanian government, which promised to confer citizenship on Jews who served in the army in the war, has not yet done so, according to the "Tribalblatt," on its action to the narrowest limit.

The government, however, has issued a decree that all Jewish soldiers who were severely wounded in the war will receive a pension of 100,000 Jewish population.

**THREE BURNED TO DEATH.**—Emerson, Minn., Aug. 20.—The barn and contents belonging to George Dillabough, 50, were entirely destroyed by fire yesterday. Five horses, one cow, two calves, six tons of hay and a large quantity of feed were burned.

**Do Your Looks Quite Satisfy You?**  
If Your Color Is Bad, If You Suffer From Pimples, Here Is Good Advice.  
Fine Results in Two Weeks

Miss Nettie E. Gallagher, a well-known actress in Italy in Middleton, writes as follows: "I was affected for two years with a rash and ugly looking pimples that spread over my face. My color was poor, and my blood evidently contained pus and dirt. There was a most desolating sort of case, because various treatments did little to help me. A friend of mine in Toronto, Ont., advised me to get Dr. Hamilton's Pills, so I sent a box for five boxes. In two weeks I felt like new—looks improved, spirits rose, and I felt I was getting well. I have used this remedy for a long time, and it has always been a great help to me." If you are in failing health, have blood disorders, stomach trouble, or headaches, Dr. Hamilton's Pills will help you quickly. Write to us and we will send you a sample. Dr. Hamilton's Pills of Mandrake and Butternut, 25c per box, five for \$1.00. Sent postpaid by the Gatarinow Co., Buffalo, N.Y., and Kingston, Canada.

## WEST EDMONTON

The initial stage in a campaign for better civic utilities in West Edmonton was taken at a meeting of ratepayers in Elm Park, held last night, at which Mr. Harry B. Thompson, president of the Edmonton Ratepayers' Association, which numbers some 30 or 40 families in the city, provided sidewalk and improved roads. Another demand is for a public school and no school or means of education have yet been provided.

Work on the Separate School in Elm Park is to be completed by Friday.

M. Braunday has returned from a trip to eastern Canada, where he visited a number of cities.

A lawn social will be held by the ladies of the West Edmonton Presbyterian Church at the home of Samuel Irvin, 1018 Jasper Avenue, on Friday evening.

**ANDERSON SALE TOMORROW.** The Anderson company forced sale starts tomorrow at 113 Jasper Avenue, J. T. Hill, Mayor of Lethbridge, is in the city today on business.
